New Mexico Environment Department Drinking Water Bureau

Eleven years after jointly creating the City-County Sustainability Office, both governments' goals and initiatives have grown so much that having separate offices makes sense.

Environmental Crimes Unit

The mission of the Durham County Sustainability Office is to help protect and improve the County's and community's environmental management particularly related to greenhouse gas emissions through wise use of natural resources by providing guidance and resources to County employees, businesses, and residents.

Department of Environmental Quality

Regulations and Enforcement The Environmental Conservation Law The law that established DEC and authorizes its programs is called Environmental Conservation Law ECL.

New Mexico Environment Department

DEC presents for public comment, a process that often includes public hearings. We regularly complete Phase I Environmental reports in less time, and a faster project completion can definitely be arranged if needed.

Welcome

Infographics on Top Health Priorities The Partnership for a Healthy Durham and the Durham County Department of Public Health have partnered to create fact sheets on the top five health priorities- affordable housing, access to healthcare, poverty, mental health and obesity, diabetes and food access. One approach is to seek help from you by asking you to provide EPA with information about potentially harmful environmental activities in your communities and workplaces. Also, please review our concerning the listing.

Expanded Polystyrene Food Service Products Ban

Emergency Response Contact Numbers in Your Area DEP maintains phone lines in each region for dispatching response personnel to emergency and incidents within DEP purview. Here are some for ways you can help the environment while staying safe during the Covid-19 pandemic.

Expanded Polystyrene Food Service Products Ban

Office of Environmental Quality ENV : ENV is staffed by experienced scientists, lawyers, and diplomats who develop and implement U. Our projects are very cost-effective, and we have the available staff and experience to complete multi-site portfolios with very short due dates. Thus, it is a priority of the EPA to provide updates to the ROE indicators frequently to provide the public with the latest available data.
