Coho salmon (*Oncorhynchus kisutch*) interior Fraser population: COSEWIC assessment and status report 2016

Interior Fraser Coho are smaller than most Coho Salmon from other parts of the range of similar age documented by Sandercock 1991 and Weitkamp et al.

Water Quality Reports

In Newfoundland and Labrador, 72 sites across the major drainage areas were sampled 4—8 times in 2017-2018. This entails providing input and advice to the Commission on all matters related to hydrometric monitoring and hydro-meteorology. Please do not enter personal information such as your name, contact information, or identity numbers.

Streamwater Quality at Selected Sites in the Fraser River Basin, Grand County, Colorado, Water Years 1991

Reliable estimates of Interior Fraser Coho escapement are available only since 1975.
