Skill

Have children segment the word sound by sound. Skill-based instruction ensures that a good amount of instructional time is dedicated to teaching students how to read, think, write, and speak in all subject areas. When your student becomes well-practiced and comfortable at a certain Lexile range, he'll be ready to move up.

Blending and Segmenting Games

If the child's guess is incorrect, he or she is out of the game until the next round. As an Amazon Associate I earn from qualifying purchases.

Blending and Segmenting Games

Builds sequence and word recognition skills Focus students on a particular story or chapter of a text. Throughout elementary and secondary education, courses are designed around content--that is, classes are developed based on the information we want students to know.

Skill

Kids LOVE to hear their favorite stories multiple times over. Students take turns asking yes-or-no questions that will help them zero in on the correct word. In small groups, each student plays a more active role in the game.
