After the Romanian Revolution of 1989, 1
May continues to be an official public
holiday, but without any state organized
events or parades. This meant moving
water jackets but that's the beauty of
designing a whole new head.

Jon Kaase didn't choose this name for his
new big-block Ford cylinder head just
because it sounded cool.

that good. The old soldier tells Meng Tian the legionnaires are adept at fighting cavalry charges, and equally strong at attacking and defending.

To prove the point, on one of JKRE's 598ci shop engines, a set of these SR-71 heads pushed the horsepower peak to 1,224 hp at 8,000 rpm. A tall short-side radius is one key to improved intake port flow, so Kaase raised the floor entry and the roof as much as possible, making the bowl entry area tall. The information provided above is for reference purposes only.

Quick Tech: Kaase SR

Even if you're not an aviation fan, everyone knows the SR-71—the U. The mechanical roller heads will come with Manley NexTek dual springs with a seat load of 235 lbs at 1. This could put a conservative 520ci big-block stroker easily at 750 horsepower on pump gas.

New education; the English background 1870

During the communist regime, like in all former Eastern Bloc countries, the day was marked by large state-organized parades in most towns and cities. This ambiguity of yangsheng claims to longevity means that specific practices are easily adopted by different groups, and can be attributed with different significance accordingly. Kaase pronounced Kah-zee is a soft-spoken guy; he'd rather let his accomplishments make statements loud enough to be heard over the exhaust note that emanates from behind the dyno doors at Jon Kaase Racing Engines JKRE.
