## HKU Scholars Hub: Conspiracy of Silence: A History of Sexually Transmitted Diseases and HIV/AIDS in Hong Kong

Despite these efforts, a continuous rise in the number of infected individuals were observed due to economic reforms, increase in migrant population, poor standards of production, underdeveloped distribution network and cultural fears.

### A history of sexually transmitted diseases in China

All of these factors are embedded in the colonial legacy and post-colonial political economic conditions across the continent.

### Sex, disease, and society : a comparative history of sexually transmitted diseases and HIV/AIDS in A...

In Late Imperial China 1550-1911, there were records that show the existence of syphilis and other STDs through contacts with Europeans, and evidence of treatment with sarsaparilla and quick silver. From this endeavor to provide insight into the conjunctions and disjunctions between the histories of STDs and the AIDS pandemic in Sub-Saharan Africa certain common issues have emerged.
