Setup Tab of Company Expense Report Configuration

Project ERP for Government Contractors Government contractors operate in a highly competitive and regulated market and have unique and complicated accounting and reporting requirements that demand purpose-built solutions. Project ERP is a one-stop shop for assessing results by project, department, account, customer, organization, vendor, and so forth.

Resource Center

If you are not using the electronic signature feature, these lines are blank. The Task Name field displays as a read-only field.

Resource Center

The Detailed Expense Report provides an overview of expense charges for a single expense report. When a user associates an expense with a category, the account specified for the category is automatically entered on the user's expense report. Approvals Section Field Description Use Approval Workflow for Employee Expense Reports Select this option to use the approval workflow to process employee expense reports.

Arch Travel And Expense

We believe that better software means better projects.
