### The incredible Chateau de Chambord Loire Valley France : The Good Life France

Unlike other castles in the Loire valley you will also need to pay a few euros for parking your car.

### Chateau de Chambord History, Pictures & Facts

There are four entries to the staircases that cross each other but people ascending or descending the stairs would not meet.

### Château de Chambord

On cold days some of the fires are lit giving it a homely feeling so that you can imagine how it must have been when the court were in residence. It allowed the French King to explore his passion for architecture, whilst also providing a base to allow him to indulge in his other great passion of hunting.

### Chateau de Chambord, France: visitor information and tourist guide

The entire castle is surrounded by 13,000 acres of wooded parkland.

### Château de Chambord: 440 Rooms of Royal Opulence

Originally built as a 'hunting lodge' for King Francois I - his 'main' royal palaces can be seen at the Château d'Amboise and the Château de Blois - Chambord is a magnificent sight both when viewed from outside and when enjoying a tour of the opulent interiors.

### Chateau de Chambord, France: visitor information and tourist guide

A French military leader was then given the property by Napoleon - he died soon after and his widow sold the castle to the Duke of Bordeaux, who soon after got exiled from France. You can also ride horses or take a horse-drawn cart from the stables where, during the summer months, there is an equestrian show. At a glance the roof is symmetrical but look closer and you will see that is not the case - among the numerous towers, light wells and decorative features there are many variations from left to right.

## **A photo guide to the Chateau de Chambord Loire Valley**

In the middle of the 20th century the castle passed into government ownership and was subsequently renovated: when you visit and see the extraordinary size and grandeur of the structure it is remarkable to remember that Chateau de Chambord has stood empty for the large majority of the last 550 years.
