7 Architects Designing a Diverse Future in Africa

One finds well-laid-out streets and fortified compounds, all made out of skilled stone masonry. They advocated the use of local, sustainable building materials including mud bricks à la Hassan Fathy and palm fronds to provide shading from the relentless desert sun.

Architecture highlights in Western Africa along the Atlantic Ocean Coast

We will never give your details to anyone else without your consent. The grey water goes through a two-phase digester system, after the filter system, and falls over a rock face to oxygenate the water flowing through the wetland into the storage dam.

New Architecture of Regional Security in Africa: Perspectives on Counter

The first prototypes are for an urban facility, Nyarugenge 1, and a rural one, Munini 2.

Four of the Most Innovative African Women Architects • African Art

Cultivating a built environment career that has spanned over 25 years, Nmadili Okwumabua lives in Atlanta Georgia and Abuja Nigeria, where she continues to offer international consultancy services in urban design and real estate asset management. Both strategies use exterior space for airborne-disease control through spacious, shaded courtyards between the volumes that can be patient waiting areas, as well as early labor walking gardens for expectant mothers and play areas for children. The reason for the difference is technology, cost, and governance.

African Buildings: New Architecture in Africa

On entering the house, the focus turns completely to the sea facing side of the home, which opens up and embraces the landscape of the West Coast. If the book is expected to have a dust jacket; it is present. She was a software developer for several years before enrolling an architecture program in 2010.

Four of the Most Innovative African Women Architects • African Art

A common theme in traditional African architecture is the use of scaling: small parts of the structure tend to look similar to larger parts, such as a circular village made of circular houses. The History of African Cities South of the Sahara From the Origins to Colonization.

Architecture highlights in Western Africa along the Atlantic Ocean Coast

Its key features are courtyard-based buildings, and walls with striking reliefs in brightly painted mud plaster. Inside the fence were roads, a walled royal palace, and urban buildings.

African architecture and design

The project features a green roof, in addition to concrete retaining and cavity walls, which ensure a high thermal mass. Nearing completion are several health-care projects in Africa. Castle building, especially around the region, began with the reign of ; and subsequent emperors maintained the tradition, eventually resulting in the creation of the royal enclosure of castles in the newly founded capital, 1635.
