Métis health profiled in survey research project

The meeting on March 8 was targeted at businesses, venues, and event organizations. As the regulation of smoking outdoors is more complex in terms of scope, the various options that were considered have been further detailed.

National Aboriginal and Torres Strait Islander Health Survey, 2018

The Administration conducted a review of signage requirements for the new smoking bylaw. Previous fiscal year annual reports can be found by visiting.

Report from the Canadian Chronic Disease Surveillance System: Heart Disease in Canada, 2018

More details are available in Appendix B, Table 1. Other factors may also increase the risk of heart failure including, but not limited to, higher body mass index, abdominal fat accumulation, elevated blood cholesterol, elevated fasting blood glucose, elevated systolic blood pressure, cigarette smoking, and valvular heart disease.
