### DNR

The commission by rule shall require a person who generates, transports, processes, stores, or disposes of Class I industrial solid waste or hazardous waste to provide recordkeeping and use a manifest or other appropriate system to assure that the waste is transported to a processing, storage, or disposal facility permitted or otherwise authorized for that purpose.

### PRC

In the agreed administrative order the commission may not require the participating potentially responsible parties to agree to perform the remedial action or admit liability for the facility remediation. Added by Acts 1993, 73rd Leg. Amended by: Acts 2019, 86th Leg.

### Resource Conservation and Recovery Act (1976; 94th Congress S. 2150)

A person may resubmit an application once without submitting an additional application fee if the person resubmits the application not later than the 45th day after the date the executive director issues notice that the application has been rejected. Why can't these popular names easily be found in the US Code? The Administrator is authorized on a case-by-case basis to exempt from ground water monitoring requirements under this section including subsection o any engineered structure which the Administrator finds does not receive or contain liquid waste nor waste containing free liquids, is designed and operated to exclude liquid from precipitation or other runoff, utilizes multiple leak detection systems within the outer layer of containment, and provides for continuing operation and maintenance of these leak detection systems during the operating period, closure, and the period required for post-closure monitoring and for which the Administrator concludes on the basis of such findings that there is a reasonable certainty hazardous constituents will not migrate beyond the outer layer of containment prior to the end of the period required for post-closure monitoring. Amended by Acts 1995, 74th Leg.

### Soil and Water Resources Conservation Act (RCA)

These handlers are subject to regulation under 40 part CFR 273.

**Has EPA developed guidance to help ensure public participation in the Polychlorinated Biphenyl (PCB) approval process when in**

The city source reduction component shall include a program and implementation schedule which shows the methods by which the city will, in combination with the recycling and composting components, reduce a sufficient amount of solid waste generated within the jurisdiction of the city source reduction and recycling element to comply with the requirements of Section 41780. Transfer of Functions For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 6903 of this title. The board may hold any hearings and conduct any investigations in any part of the state necessary to carry out its powers and duties.
