Football betting among young Nigerians may create problems but a ban isn't the answer

These considerations are likely to gain further traction, as the repercussions unfold over the coming months and years. The major victims of these acts of terrorism are the youths of the country.

Youth and COVID

Consequently, they are forced to abandon their dreams due to poverty. Youths are the most vulnerable to all the vices that can be noticed in our present society.

Football betting among young Nigerians may create problems but a ban isn't the answer

Thanks to the Youth Empowerment, young people are now able to learn skills that will serve them and develop their lives.

Challenges Facing Youths in Nigerian Society

In the context of ageing societies, increasing public debt levels due to the COVID-19 crisis may further exacerbate existing challenges to sustainable public finances Rouzet et al.

Increasing employment opportunities

Kano, once a great city of the north but now on its knees, gains hope from its native son Aliko Dangote and his plans for agriculture. But beyond symbolic memberships and flagship roles, youth should be fully vested with effective and executive responsibilities. The UK National Youth Agency has published a report highlighting how the pandemic is amplifying existing vulnerabilities among young people as well as providing suggestions on the role of youth work in the current context.

Increasing employment opportunities

Some of the innovative teaching and learning tools and delivery systems schools and teachers experimented with in response to the crisis may have a long-lasting impact on education systems. Understanding their reasons for leaving the country is important if Nigeria is going stem the tide. For example, Kenya has a large population of educated youth employed in mobile phone-based financial services innovations that have high job creation potential Borat and Tarp, 2016.
