Depending on where you live, this might require moving to a town with a professional orchestra. Build in time for extended explanation or discussion, but also be prepared to move on quickly to different applications or problems, and to identify strategies that check for understanding.

### **The Institute**

This will help you develop a sense of how realistic your goal is. Realistic goals are also more motivating than those that set the bar too high.

### **Strategies for Effective Lesson Planning**

You should not get discouraged — it happens to even the most experienced teachers! Take a few minutes after each class to reflect on what worked well and why, and what you could have done differently. There are cited in this article, which can be found at the bottom of the page. While some can be overcome, others might present too much of challenge.
