Endocrine Diseases & Metabolic Diseases

Though it is difficult to draw definitive conclusions about the need for glucocorticoid therapy in all non-classic CAH/NCCAH women, pre-conception treatment may benefit those with infertility or with a history of abortions.

Endocrine Diseases

Endocrine dysfunction can usually be managed if detected early. In addition to the lipid panel, the Writing Committee recommends a more thorough cardiovascular risk assessment in these patients.

Perioperative Evaluation and Management of Endocrine Disorders

Subsequently, two disease-specific questionnaires designed for patients with adult GHD were developed, namely the adult growth hormone deficiency assessment AGHDA questionnaire and the Questions on Life Satisfaction-Hypopituitarism questionnaire QLS-H.

Preconception management of endocrine disorders.

If the pulse rate is above 100 in the adult or 120 in the infant, the physician should be notified.

Harvard CME

Menopause The use of hormone therapy in women who have experienced menopause is also associated with increased CVD risk.

Endocrine Diseases & Metabolic Diseases

Adequate contraceptive measures must be followed in patients on anti-androgen therapy.

NCLEX: Endocrine disorders

Gonads Gonads include testis and ovaries.

Perioperative Evaluation and Management of Endocrine Disorders

Lifestyle modification and physical activity, can be continued in the pre conception phase. This multiplicity of actions is further supported by the common finding of no correlation between improvements in QoL and biochemical markers used to evaluate hormone replacement, metabolic parameters or body composition indices in treated AGHD or hypopituitarism.
