### Bhutan: A model for sustainable tourism development

The results were intended to be viewed in conjunction with the in-depth neighborhood survey and extensive consultation with special interest groups.

Priorities are determined based on resulting scores assigned to each problem. This will require the training of stakeholders as well as the provision of an appropriate time schedule for the completion of the assessment. The combustion of high sulfur coal and oil for home heating and industrial processes pollutes the air.

### Bhutan: A model for sustainable tourism development

The process of building partnerships must be facilitated by some institution that is seen by diverse community interests to be legitimate. The process of demystifying technical know-how has been a learning process for all parties involved.

### The role of land use planning in sustainable rural systems

The local economy is currently based on a very diverse range of industrial and service sectors and is less dependent on a small number of dominant older industries. The approaches in this Guide are also based upon presentations and discussions in regional seminars held in Buga, Colombia, Hat Yai, Thailand, Johannesburg, South Africa, and Yokohama, Japan; these seminars involved more than 300 local government representatives from over 30 countries.

### Bhutan: A model for sustainable tourism development

There is no mandatory requirement under this legislation to incorporate public participation into the planning process, except for placing the draft town plan on public exhibition for a period of at least 60 days and calling for written public submissions. In order for such an approach to have a

long-term or strategic impact, two other factors must be built into the assessment process.
