## Working Tests Results

They swim fast and often attack from below. . That should serve as a reminder that perseverance often has its reward! Here the stocked trout are predominantly interested in feeding on the millions of midges harboured by the silt of the shallows and various kinds of bloodworm and buzzer imitations are at a premium.

## Working Tests Results

On the 17th, DM from Hereford fished at Craig Llyn and reported 18 grayling and 2 trout, including a large one.

## How to build a pond

On the 15th, B and JJ from Malvern fished at Lyepole and found the Lugg still low though now slightly coloured.

## Llyn Bugeilyn

After about 3 seconds you will very likely see the line depending from the rod tip twitch and then begin to accelerate forward.

## Library

So, what can we tell about the culture and the climate back then, when our arrowhead-maker lived up here? Thank you all ðŸ™‚ Retriever Working Test, Clytha Park, Abergavenny - Saturday 23rd June 2018. Very familiar to me is the description of his own son, who disdains to listen to fatherly advice, pooh-poohs the supposed difficulty of the task, and then picks up the fly rod and succeeds at once with effortless and delightful grace.

## Myrddyn Phillips

My one wasn't and I was VERY lucky, when I came to demolish it the pier just fell away from the foundations as they'd been poured seperately. The boathouse pictured below caters for anglers, seeking the quiet solitude of this place and the brown trout that can sometimes go into feeding-

frenzy mode when there is a major hatch of flies or beetles. I am one of those volunteers and can confirm that most of the others are anglers.

### **The Wye and Usk Foundation**

AR was using a 7 foot 3 weight rod when he took the big fish, so perhaps it was fortunate that it came in relatively quietly.

### **WELSH WEATHERPIX**

The knot looks neat enough, but grayling are very muscular fish. He fished the main Wye at Llangoed and Lower Llanstephan the following day and got 17 grayling on nymphs.
