Clean Pastures

However, it is a welcome volunteer.

About us — The Old Pastures

This compaction can cause more problems, such as reduced water infiltration, root growth and aeration.

FOR107/FR145: Establishment of Silvopasture in Existing Pastures

Clipping may damage or kill some seedlings, but the losses will be far less than if the competition is not controlled.

New Seeds for an Old Pasture

The cost is high and the added benefit may be in no relation to the added expense. On some other soil types the natural processes might be too slow to counter the effects of a serious or repeated pugging events, so some of the following renovation methods can be used.

Spring pasture tip: Hold up on that fertilizer

Numerous dog friendly pubs in surrounding villages. This compacted zone can impede water infiltration and restrict subsequent pasture growth.
Legume seeding rates for frost seeding.
