Biomagnetism USA™

In this work he describes many of his experiments with his model earth called the. In 1600 English Scientist William Gilbert was the first to investigate magnetism using scientific methods.

The Relationship Between Electricity and Magnetism

A stationary point charge has an electric field, but if the charge is set in motion, it also generates a magnetic field.

What is magnetism?

After trying several alternative treatments with no success and just giving up any hope, I saw on TV some information about this therapy with magnets, the Biomagnetic Pair Therapy or Biomagnetism.

Magnetism

Cutting a magnet makes two smaller magnets, which each have north and south poles.
