Health and Personal Social Services (Northern Ireland) Order 1972

In some cases, hurried meetings were properly convened and decisions properly made. However, the current system of provision and incremental policy changes is too fragmented and diverse to be coherently related to an ideology or set of principles and to demonstrate clear distinctive divergent national ideologies linked to systems of provision.

The Children (Northern Ireland) Order 1995: Considerations of the legislative, economic and political, organisational and social policy contexts

The balance will be appointed after consultation with such interest as the universities, industry and commerce, the trade unions and voluntary organisations.

The Independent Health Care Regulations (Northern Ireland) 2005

Most of the representatives on the Eastern Area Board will be Belfast-based and Belfast orientated, and I fear they will have an in-built bias against the growth of Bangor and Newtownards hospitals.

The Independent Health Care Regulations (Northern Ireland) 2005

I think that that was because at the time we were largely focusing on hospital trusts and not on the possibility of integrated trusts—combined health and personal social services trusts.

HSC Structure

The whole point of the order is to achieve a total split between purchaser and provider. I can assure my hon. We believe that these objectives can best be achieved through collective rather than individual action.

Health and Social Care (Northern Ireland)

The Health and Social Care Board is responsible for commissioning services, resource management and performance management and service improvement. The new trusts, too, will be responsible to the Minister and the Department. Their approach is associated with social solidarity and a stronger inclination towards redistribution, social equality and universalism than is apparent in England.

The Independent Health Care Regulations (Northern Ireland) 2005

They are told that assurances cannot be given at present because parallel legislation is to be introduced and adopted in Great Britain.
