## Velký přelom

In the British Isles, by contrast, the prevailing Atlantic westerlies mostly bring cold rain and dampness during winter.

In March 1884, Ito had assumed headship of both the Imperial Household Ministry and a committee charged with reorganizing government prior to the implementation of parliamentary elections. As the problems of human resistance and human entanglement gradually eased, the managers of Goryorin focused more fully on their woodland biota, and our attention shifts accordingly.

## Velký přelom

The Hundred Year Plan For all its grand ambition, in the end, the Hundred Year Plan fared even less well than the early ones. During their agricultural centuries both experienced substantial deforestation, which led to forest-product scarcities and substitutions and, from about the seventeenth century onward, to the development of reforestation strategies. As of late 1881, then, Meiji leaders — notably Iwakura and three SatChō men, Yamagata, Ito, and Matsukata Masayoshi — faced two crucial Establishing Goryorin 17 dangers.

## Velký přelom

But Britain, unlike Japan, also adopted brick construction and masonry techniques that utilized cementing material. Their problem had two major dimensions, fiscal and political, and both spurred efforts to secure the Household.

Like general plans, however, these local ones were only guidelines, and drawing them up did not assure their implementation. Nevertheless, the Property Office gradually increased its rate of extraction, doing so in part by reducing hand-planted reforestation and aftercare. Such applications must be submitted within a year, however — by June 30, 1901, to be precise.
