NMSU: Agricultural Experiment Station

What Is the Agricultural Experiment Station? The Agricultural Experiment Station is not a physical site, but rather a system of scientists who work on facilities on the main campus in Las Cruces and at 12 agricultural science and research centers located throughout the state. Research is at the core of NMSU's mission to improve upon the lives of people globally. Locate An Office OARDC is a premier institution committed to safe, healthy, and affordable food and agricultural products; sustainable food and agricultural systems; strong rural and urban communities; stewardship of natural resources and the environment; keeping Ohio positioned favorably in a global economy.

Current studies utilize purebred Landrace and Berkshire pigs as models for understanding genetic variations as they relate to economically important traits. By ARA Memorandum 5, February 13, 1943, Bureau of Home Economics became Bureau of Human Nutrition and Home Economics; and engineering research functions transferred from Bureau of Agricultural Chemistry and Engineering redesignated Bureau of Agricultural and Industrial Chemistry to Bureau of Plant Industry renamed Bureau of Plant Industry, Soils, and Agricultural Engineering.

Records of the Agricultural Research Service [ARS]

The Department of Forestry at the Ohio Agricultural Experiment Station produced numerous publications, including factsheets, bulletins and circulars to educate Ohio farmers and woodland owners on the importance of improving and maintaining woodlots for forestry purposes. That whenever it shall appear to the Secretary of the Treasury from the annual statement of receipts and expenditures of any of said stations that a portion of the preceding annual appropriations remains unexpended, such amount shall be deducted from the next succeeding annual appropriation to such station, in order that the amount of money appropriated to any station shall not exceed the amount actually and necessarily required for its maintenance and support.
