## Inner space man

The Chairman of the CCOP Steering Committee Meeting, Permanent Representative of Indonesia to CCOP and Head of the Geological Agency of Indonesia, Dr R. Provincial and Territorial Geological Surveys The LITHOPROBE partnership also includes scientists from provincial and territorial geological surveys, when activities of a transect are within their areas of jurisdiction. Also, few formal educational programs have been established for developing professionals who are knowledgeable in scientific computing and data.

## Inner space man

Inclusion of disciplinary STEM education experts is also encouraged. Summary of LITHOPROBE scientific activities and work plan for the lifetime of the project, 1984 - 2003.

**Alessandro Mondini, Dr. — Geomorphology Research Group @ CNR IRPI Perugia**

Digital data management is a fundamental component of LITHOPROBE Phase V.

**Alessandro Mondini, Dr. — Geomorphology Research Group @ CNR IRPI Perugia**

How were outboard Cordilleran terranes assembled to produce the present distribution of exotic elements? If it is not sufficiently interdisciplinary and lacks the three required types of expertise, then it is not appropriate for CCEP-I. Mondini started his scientific career in March 2008 with the Italian Consiglio Nazionale delle Ricerche. Without this final investment to ensure completion of the project as a unified entity, the prior investments from all sources during the past 13 years will not be capitalized upon.

## Inner space man

Investigation of the mantle lithosphere beneath THO has been realized through seismic reflection and refraction, teleseismic and MT studies. Haines-Stiles, GHSP DRL-0917595: Sustainability: Promoting Sustainable Decision Making in Informal Education R. Such participation involves

direct financial contributions and in-kind support for specific studies.

**Challenges and Future Directions for Data Management in the Geosciences in: Bulletin of the American Meteorological Society  
Volume 100 Issue 5 (2019)**

Almost 500 of these publications and more than 300 new authors have been added since submission of the Phase IV Proposal in January 1993.
