When people asked about young girls, Freud hastily came up with another idea, the Electra complex.

Freud and the Psychodynamic Perspective

To counteract loneliness, people use myths, religions, and totalitarianism to bind themselves to each other. Freud maintained that imbalances in the system can lead to neurosis a tendency to experience negative emotions , anxiety disorders, or unhealthy behaviors.

Sigmund Freud

In other words, if a theory is incompatible with possible observations, it is scientific; conversely, a theory which is compatible with all possible observations is unscientific see Popper, K. For instance, in repression, anxiety-causing memories from consciousness are blocked.
