## Basic Pottery Hand Building Techniques

Drying Drying flat forms is very critical.

### Tools : Handbuilding : Paddles

If you have any questions, please feel free to contact our.

## Handbuilding and Ceramic Sculpture: Compound Form

An evenly rolled-out slab of wet clay can be laid over top of the hump and pressed against it. After the clay firms up, but is not quite leather hard, rotate the form until all the slabs have been added.

## Basics of Hand

Ever wished you had an instruction book for all the different types of pottery forms? All you need is clay and a table to work at. This is an active site updated January 2021 Sandi is Celebrating 10 Years of CircleMatic! It is important not to bend your slabs while they are wet. You can buy devices that act like cheese slicers to cut the clay off at a certain thickness.

## 110 Handbuilding With Clay ideas

I will be doing a mail order. Please visit each section to learn more about the specific uses of the different types of molds we carry.
