Great Plague 1665

As these are old books, we processed each page manually and make them readable but in some cases some pages are blur or missing or black spots. Flora Arabica is a botanical catalog of the plants of the Arabia. Pages: 436 Pages: 436 Volume: c.

Exhibit Bibliography

London, printed by James and Joseph Moxon, for Stephen Bowtell, at the Sign of the Bible in Popes-head-Alley, 1648. The responsibility of the Parish Clerks' Company, this new body of literature provided the material for John Graunt's Natural and political observations made upon the bills of mortality 1662, now regarded as the foundation of medical statistics, which had gone through two editions with a third forthcoming at the time of the publication of London's Dreadful Visitation. Oh where's the vows we to our God have made! An essay in the form of a letter, expanded and edited for publication, from William Addison Dwiggins to Rudolph Ruzicka on the subject of typeface design.
