William Stroudley : Craftsman of Steam by H J Campbel Cornwell

He also introduced at the Brighton works the system of the interchangeability of parts, in which he was a firm believer - his principle being that many parts of engines of different classes should be made, as far as possible, interchangeable. This information was published by Mr. This one, number was built at Brighton in and was used in the south of England until when she was sold to a colliery in Staffordshire before the end came in Follow H.

William Stroudley

An An and Yin-Long share the same basis. The most striking example of this feature of his character is found in the fine boats of the Brighton Railway Company which run between Newhaven and Dieppe.

Stroudley was married twice, first about 1860 to an unknown person who died in 1865, and second in 1877 to Elise Lumley Brewer, from a family engaged in finance. When he accepted the charge of the steam engines and machinery at the Helpstone Paper Mills he introduced improvements of different kinds, which made a considerable reduction in the consumption of coal. Available in the National Library of Australia collection.
