ON THE WATER OF TUKTOYAKTUK HARBOUR

Spend the day picnicking and absorbing the panoramic scenery. Visitors by the dozen pull off shoes and socks, roll up pant legs and take a step or two into the icy waters. Even at this early point, I know this is the bike of the year.

The vanishing point: life on the edge of the melting world

We saw our first Bison on the Alaska Highway! Most of the Gwichya Gwich'in inhabitants still follow a traditional lifestyle of hunting, fishing and trapping. Their home was recently assessed and deemed movable but they are still waiting for the decision on the new location. The temperature was -35 Celsius.

Information archivée dans le Web

The area is far away from the core of the community.

Tuktoyaktuk teetering: Hamlet's shoreline erosion a warning to rest of Canada's North

Few buildings still standing on on the Point. The Tuktoyaktuk Canoe club will lend out their canoe s to responsible visitors.

The vanishing point: life on the edge of the melting world

This gets worse in the future. Inuvialuit have lived in Tuktoyaktuk since ancient times. Trust me, no one wants it in print more than I do.

ON THE WATER OF TUKTOYAKTUK HARBOUR

Today, reefs resembling these petrified caribou are said to be visible at low tide along the shore of the town. When crossing into the NWT, The Dempster becomes NWT Highway 8. Sometimes small bottles of Arctic Ocean water are available to purchase or just bring your own bottle and

take a bit of the ocean home.

Canoe and kayak rentals come to Tuktoyaktuk

Baird predicts the slabs would be less effective and would not address rising sea levels.

About Tuktoyaktuk

This is an ideal place to unwind. Project of Alaska Chapter of the American Fisheries Society. There is no new development allowed at the Point because of the quickly progressing erosion.
