

Calcium transport in contraction and secretion - proceedings of the International Symposium on Calcium Transport in Contraction and Secretion, Bressanone, Italy, 12-16 May, 1975

North-Holland Pub. Co. - Organic and inorganic calcium antagonists reduce vasoconstriction in vivo mediated by postsynaptic α 2

Description: -

-

Transportation -- Effect of inflation on -- Congresses.

Inflation (Finance) -- United States -- Congresses.

Transportation and state -- United States -- Congresses.

Water quality -- Texas -- Main Floodway -- Computer simulation.

Streamflow -- Texas -- Main Floodway -- Computer simulation.

United States -- History.

Catholics -- United States.

Tales -- Indonesia -- Jawa Tengah.

Armenian church -- History.

Armenian Church -- Turkey -- History.

Armenian Church. Konstandnupolsoy Patriark'ut'ivn.

Zawēn, Armenian Patriarch of Constantinople, b. 1868.

Alcoholism -- England -- Statistics

Steam power plants -- United States.

Public utilities -- United States.

Electric utilities -- United States -- Finance.

Secretary rate -- Drug effects -- Congresses.

Muscle contraction -- Drug effects -- Congresses.

Enzymes -- Metabolism -- Congresses.

Calcium -- Metabolism -- Congress.

Biological transport -- Congresses.

Muscle contraction -- Congresses.

Calcium -- Secretion -- Congresses. Calcium transport in contraction

and secretion - proceedings of the International Symposium on

Calcium Transport in Contraction and Secretion, Bressanone, Italy,

12-16 May, 1975

-Calcium transport in contraction and secretion - proceedings of the

International Symposium on Calcium Transport in Contraction and

Secretion, Bressanone, Italy, 12-16 May, 1975

Notes: Includes bibliographies and index.

This edition was published in 1975

Calcium compartmentalization in pancreatic acinar cells

Calcium transport in contraction and secretion : proceedings of the International Symposium on Calcium Transport in Contraction and Secretion : Bressanone, Italy, 12-16 May, 1975 Amsterdam : North-Holland Pub. The measured

Filesize: 68.72 MB

transport numbers attest a high selectivity in ion permeation.

Calcium Transport in Contraction and Secretion: Proceedings of the ...

Silylation of the desacetyl derivative separates the metabolite from the parent drug on a 1% OV-17 column and cyclopam is used as an internal reference standard.

Organic and inorganic calcium antagonists reduce vasoconstriction in vivo mediated by postsynaptic α 2

The method has been used to determine both diltiazem and its desacetyl derivative in plasma obtained from healthy volunteers after oral doses of

60—210 mg of diltiazem. This phenomenon is a consequence of the different environment of the carrier in the two membrane sections. Calcium transport in contraction and secretion : proceedings of the International Symposium on Calcium Transport in Contraction and Secretion : Bressanone, Italy, 12-16 May, 1975 Amsterdam : North-Holland Pub.

The interaction of calcium, cyclic AMP, and prostaglandins on secretion by the adrenal gland

The divalent cations Mn^{2+} , Ni^{2+} and Co^{2+} . Found In: International Symposium on Calcium Transport in Contraction and Secretion 1975 : Bressanone, Italy. The calcium antagonists verapamil, D 600 and nifedipine, when given intraarterially i.

Simple, sensitive and specific gas chromatographic method for the quantification of diltiazem in human body fluids

In: Carrier O, Shibata S eds Factors influencing vascular reactivity. A gas chromatographic method for the determination of the benzothiazepine diltiazem together with its major metabolite desacetyldiltiazem, is described.

Calcium Transport in Contraction and Secretion: Proceedings of the ...

Found In: International Symposium on Calcium Transport in Contraction and Secretion 1975 : Bressanone, Italy. On the other hand, vasopressor responses to α 1-adrenoceptor stimulation are not directly dependent on a transmembrane influx of calcium ions. Found In: International Symposium on Calcium Transport in Contraction and Secretion 1975 : Bressanone, Italy.

The interaction of calcium, cyclic AMP, and prostaglandins on secretion by the adrenal gland

Process of the type shown in Fig. In: Fleckenstein A, Roskamm H Hrsg Calcium-Antagonismus. Biochem Pharmacol 28:1277—1282 Cite this article van Meel, J.
