### Special education services

Ask to meet with a disability advisor, and bring any relevant documents with you.

### Special education services

It is worth your time and patience to repair misunderstandings and unclear expectations. You will need to access these grants. What about special education placements? If you have a concern about your child, provide a written request to the school psychologist, counselor or principal to have him or her evaluated for possible special education services.

### Special Education

The first course is offered on campus for two weeks in the summer and the rest of the courses are offered online. Each category is given a code for the purpose of reporting special education data to Alberta Education.

### Special Education

School authorities distribute the funding they receive based on the needs of students within their school communities.

### Inclusive education

It is drafted by an IEP team, which includes the parents. In Alberta schools, the term students with special needs means children who need special education programming because of their behavioural, communication, intellectual, learning or physical challenges.
