Reviews and bibliographical notices

Obturator neurectomy for coxalgia; an anatomical study of the obturator and the accessory obturator nerves.

John Hilton

Kawaguchi M, Hashizume K, Iwata T, Furuya H, Baker CL, Uribe JW, Whitman C 1990 Arthroscopic evaluation of acute initial anterior shoulder dislocation.

Rest and pain : a course of lectures on the influence of mechanical and physiological rest in the treatment of accidents and surgical

diseases, and the diagnostic value of pain : Hilton, John, 1804

If our conclusions turn out to be right, patients with labrum detachment after traumatic shoulder dislocation should undergo surgery as soon as possible to restore their anatomical integrity and retain the neurophysiological feedback mechanism. Finally, this case report furthers the literature on potential treatment of chronic knee pain from a variety of different disease processes using genicular nerve RFA.

Rest and pain : a course of lectures on the influence of mechanical and physiological rest in the treatment of accidents and surgical diseases, and the diagnostic value of pain : Hilton, John, 1804

Cooled Radiofrequency neurotomy of the articular sensory branches of the obturator and remoral nerves — combined approach using fluoroscopy and ultrasound guidance: technical report, and observational study on safety and efficacy.

Lectures on Rest and Pain by John Hilton

With downward stress during the sulcus test the distance between the acromion and the humeral head increased by 5. Furthermore, the longevity of her pain reduction is another consideration to be investigated in the future.

On rest and pain : a course of lectures on the influence of mechanical and physiological rest in the treatment of accidents and surgical diseases, and the diagnostic value of pain, delivered at the Royal College of Surgeons of England in the years 1860, 1861, and 1862 : Hilton, John, 1804

The internervous safe zone for incision of the capsule of the hip: a cadaver study. He was Surgeon-Extraordinary to the queen and president of the medical society, the pathological society, and the newly-founded Sydenham Society, and was president of the surgical section of the assembly of the British Medical Association in London in 1873. Bell and Daldy, 186, Fleet-street.
