## History of women in the Italian Resistance

It believed the success of Italian nationalism required respect for and a clear sense of a shared past among the , alongside a commitment to a modernized Italy. In the 1930s, Mussolini became aggravated by the monarchy's continued existence due to envy of the fact that his counterpart in Germany was both head of state and head of government of a republic; and Mussolini in private denounced the monarchy and indicated that he had plans to dismantle the monarchy and create a republic with himself as head of state of Italy upon an Italian success in the then-anticipated major war about to erupt in Europe.

Pavignano, Anna [WorldCat Identities]

Fascism sought to accommodate Italian conservatives by making major alterations to its political agenda—abandoning its previous populism, and , adopting policies in support of and accepting the and the monarchy as institutions in Italy. His image proclaimed that he had improved the Italian people morally, materially, and spiritually.

## **Fascism**

Friction continued over the Azione Cattolica youth network, which Mussolini wanted to merge into his Fascist youth group. Liberal opponents of both fascism and the Bolsheviks argue that there are various similarities between the two, including that they believed in the necessity of a vanguard leadership, had disdain for bourgeois values and it is argued had totalitarian ambitions.
