The Nays in Mongolia: Choibolson

A majority of these smaller companies end up being acquired by the chaebol, only increasing their size and economic dominance. I thought I had pictures, but I can't find them. A compromise was reached, under which many of the accused corporate leaders paid fines to the government.

The Nays in Mongolia: Choibolson

We were not the only ones who were not informed of the change of plans. The chaebol are notoriously hierarchical. Growth resulted from the production of a diversity of goods rather than just one or two products.

Chaebol

No water, there is an outhouse.

Chaebol

I had tried to look on line before we came but they do not have online information about the status of their flights Never mind, that probably wouldn't work because they don't answer their phone. The government had to react and so devised a plan in providing strong financial incentives to private companies between the 1960s and 1970s. Signs of this is evident in standard recruiting process, where newly acquired employees undergo intense initiations.

Chaebol

Loyalty to the firm is heavily emphasized at the chaebol. These were the enhancement of management transparency, strengthening owner-manager accountability, elimination of cross-debt guarantees among chaebol affiliates, improvement of capital structures, and consolidation of core business areas.

Chaebol

This is reflected by the fact that most executives are far older than their employees.

Chaebol

They were going to get something welded on to the end of the pipe, some kind of shutting locking cap.

Chan Boon Yong

Collusion between members of the chaebol and the government granted preferential statuses to the companies.
