The Politics of Flexibility: Restructuring State and Industry in Britain, Germany and Scandinavia

If not, what exactly distinguishes large firm FS from flexible mass production? Maurice Glasman is a Labour peer and director of the faith and citizenship programme at London Metropolitan University. Nor does it treat technology as an independent causative agent with its role specified independently of how it is integrated in productive organisation and business strategy. It passed the , which meant nationalisation of the industry, as the government bought out the shareholders, and created the.

The Politics of flexibility : restructuring state and industry in Britain, Germany, and Scandinavia

For example, switching between products has either not been sought or proved difficult to achieve, with problems of compatibility between machinery installed at different times proving particularly troublesome Hyman, 1991.

Few mid, emerging corporates opt for RBI's one

Ultimately, however, their work is still constrained within the parameters of the basic mass production system of which they are a part. Unfortunately, DQP requires training in more generalized skills.

The Politics of Flexibility: Restructuring State and Industry in Britain, Germany and Scandinavia

The DQP approach, Streeck argues 1991, p. Moreover, is hybrid FS very different from what others have referred to as flexible mass production? He also has a view as has been seen about how perceived conflicts can be institutionalized in ways that may stimulate profit-seeking entrepreneurs to take a longer-term view and to move in socially desirable directions.

Civil Society Actors and the Welfare State. A historically

Underlying the shift to small firms is their alleged greater productivity and flexibility.

20th

To-gether with providing services, civil society actors have exerted political pressure on the state, demanding an enlargement of social rights or challenging the principles of public intervention.
