Post

Westport, CT and London: Praeger Publishers, 1997. PIP: An increasing focus

on quality of health care has led to an understanding that program-client interface is a critical area in the provision of women's reproductive health care. Contraceptive side effects: responding to clients concerns.

PRIME PubMed

Geneva: World Health Organization, 1996.

Vol. 25, No. 1, Jan.

Health Communication: Lessons from Family Planning and Reproductive Health. What have we learned from studying changes in service guidelines and practices? Our work allows couples to plan their families and chart their futures. Finally, the group recommended that further research be performed on 1 incorporating women's perspectives into program design, 2 attitudes and interactions of users and providers of abortion care, 3 programs for adolescents and for women with HIV, and 4 ways of linking abortion and FP services.

References for Client

Comparative look at pill compliance in four DHS countries.

The Study of Client

Sekadde-Kigonde C, Mwathe EG, Ruminjo JK, et al. Stud Fam Plann 1991;22 6 :384-90. In addition, a review of key studies that examined the impact of interventions to improve CPI in compliance with medical regimens was carried out.

Post

Stud Fam Plann 1996;27 2 :59-75.
