By midwar there were palpable differences in the. This item may be a former library book with typical markings.

Behind the Lines: Gender and the Two... book by Margaret R. Higonnet

Once it was born, of course, it faced the inevitable problems that attended the introduction of women other than nurses into the military services.

Behind the Lines: Gender and the Two World Wars by Margaret R. Higonnet

.

Behind the Lines

This is an important contribution to current debates about war and human identity, war and political reality, war and transformative possibility. .

0300044291

This situation found expression within the particular social and cultural context of each country, but the French experience was especially conflictual. ¹ Women, like men, have been mobilized for both civilian and military work.

margaret randolph higonnet et al., editors. Behind the Lines: Gender and the Two World Wars. New Haven: Yale University Press. 1987. Pp. viii, 310

The Daily Express, expounding on. Wartime changes are short-term variations. Instead, we increasingly think in terms of the changing forms of power, diverse groups of men and.

Most items will be dispatched the same or the next working day. Historians like Alan Milward and Angus Calder argue that war does not cause social or economic phenomena but merely accentuates or hastens ongoing processes. But case histories have an important place in history, for they permit us to focus on the gradual processes of questioning and commitment and can thus correct our tendency to simplify and modernize the historically varied manifestations of a movement such as feminism.
