Bree Olson

The business school professors tell me it is their fault because most of their students want to learn global finance and they could care less about productivity. We think of the high we achieved and we yearn for the flow state.

Tightening the Iron Cage: Concertive Control in Self

You have a simple choice.

Bree Olson

In summary You cannot make them go away by labeling them light touch or even big foot.

Behavior and Process Models of Leadership

Sensors inside equipment can monitor if any parts need a service and automatically sends reports to owners and manufacturers. Jim— Thanks for this perspective. Never criticize yourself as having a weakness.
