Prairie Dogs for Adoption

Git-R-Done Pest Control is also working on the development of a cage that will be placed over the hole, eliminating the necessity of the prairie dog coming to the trap. The black-tailed prairie dog is found in eastern Wyoming — primarily in the northeastern portion of the state. Then they will come out and it will be a social gala.

Roberts Prairie Dog Town (Badlands National Park)

This species is very prone to the development of odontomas, a benign tooth root tumor. While denied endangered status in 2014, it should be noted that this is an extremely important keystone species in their native habitat and should thus still be treated with some level of care.
