The introduction of the HYVs has led to increasing rural inequalities and landlessness, and has contributed to the ethnic and communal violence which has claimed thousands of lives in the Punjab.

Bioplastics in the sustainability dilemma

As an attendee, you will gain insight into the convergence of technologies and the challenges they present to making the vehicle a Consumer Device on Wheels.

The Green Revolution in the Punjab

However, in the 1990s and 2000s, nontraditional ENSO conditions were observed, in which the usual place of the temperature anomaly Niño 1 and 2 is not affected, but an anomaly arises in the central Pacific Niño 3.

Agriculture in Kenya

Kenyans and other Africans, like Malawians and Zimbabweans, grind maize into flour before distributing it. During El Niño years the cold water weakens or disappears completely as the water in the Central and Eastern Pacific becomes as warm as the Western Pacific. Low atmospheric pressure tends to occur over warm water and high pressure occurs over cold water, in part because of deep convection over the warm water.

11 Amazing Facts About the Amazon Rainforest

The two phases relate to the , which was discovered by during the early twentieth century.

El Niño

Because of pests, disease and decreased , farmers are rotating their sweet potato plants as much as possible, which means using a field for sweet potato plants only once every 5 years, and not having the crop in the same field for two consecutive years. Mechanisms that cause the oscillation remain under study. Potatoes harvested from a Kenyan farm.
