Citations

More than two-thirds of medical students incorrectly report that at some time they have had the symptoms they are being taught about. Research has also addressed whether patient centredness is predictive of outcomes such as patient satisfaction, compliance and patient health status Henbest and Stewart 1990; Savage and Armstrong 1990. British Journal of Psychology, 1986, 77, 305-327.

APPROACHES TO GROWTH AND CHANGE

Participants appeared to use several different cognitive strategies when interpreting the investigative information.

NCTRC Practice Flashcards

Relation between sexual assault and negative affective conditions in female college students. See, for example, Spearly and Lauderdale 1983.

Cognitive techniques

Journal of Child Psychology and Psychiatry, 147 9 , 910-918. Basic principles and assumptions Freud's concepts are closely interwoven, making it difficult to know where their description should begin Jacobs, 1992.

The Phenomenon of Psychotherapeutic Change: Second

Discuss concerns respectfully: Establishing consent and rapport in the initial interview. I don't think I have to be an alcoholic for the rest of my T F l ife.

Attributional change during psychotherapy, British Journal of Clinical Psychology

The factor structure of the Dispositional Hope Scale in hemiplegic stroke patients. Hope, pride, and processing during optimal and nonoptimal times of day.
