Welcome to Study in Europe

Looking very much forward to having you onboard. Where do I begin planning studies in Europe? Experience Europe's world-class education system and its expansive offering of bachelor's and master's courses, doctoral study programmes and more.

Bildung

Section A briefly examines the link between the national education systems and internationally comparable statistics.

Europäischen Einheit für die Bildungsqualität

Statistics refer to public and private, full-and part-time education in the ordinary school and university system. Another aspect relates to existential meaning and autonomy: In order for individuals to be empowered and gain autonomy over their own life, part of the moral and emotional development is existential meaning, a sense of purpose and personal agency. Bildung, therefore, is a process of individual maturing and taking upon oneself ever bigger personal responsibilities towards family, friends, fellow citizens, society, humanity, our globe, and the global heritage of our species, while enjoying ever greater personal, moral and existential freedoms.

About Us

Der Gegenstand ist Bildung, hier in Bezug zu Europa. The publication is written in German, English, and French.

Bildung in Europa

Die Informationen sind für die 43 europäischen Bildungssysteme erhältlich, welche die 38 am Erasmus+ Programm der EU teilnehmenden Länder abdecken.

Bildung

Why would the UK not be a part of Europe? Section H contains demographic data, including population scenarios up to the year 2020.

Struktur der europäischen Bildungssysteme 2017/2018

Einen Beitrag zu diesem Thema zu verfassen, ist jedoch alles andere als einfach: Die Deutung der Überschrift ist keineswegs selbstverständlich, vielmehr enthält sie mehrere Deutungsdimensionen.
