Themistius

This study attempts to place Dominic within the broader context of Aristotelianism to which he belongs, recognizing his place within the school of Thomism that was thriving in Italy at the time, especially in Bologna. It is also the first extant commentary on this work of Aristotle to survive from antiquity. The principle of origin establishes that there must be a maximum complexity that originates the others by logical deduction.

Aristotle: On the Soul

This ability is key to understanding the human condition: science, history, news media, propaganda, gossip, utopian fiction, and sophistry, as well as philosophy. The identity of intellect with intelligibles had been omitted by Aristotle in Metaphysics 12, but is suggested in his Physics 3.
