## Scottish upland forests: History lessons for the future

Today's young dense forests will result in higher timber values in the coming decades, but the forest has lost a range of ecological niches. The Mughals showed more interest in gardens and their development.

## CAB Direct

It tests the hypothesis that the climax vegetation is a closed canopy forest, against the alternative hypothesis that species composition and vegetational succession were governed by large herbivores, and that the Central and Western European lowlands were covered by a park-like landscape consisting of grasslands, scrub, solitary trees and groves bordered by a mantle and fringe vegetation.

## History of forests in India

Thank you all for your comments and contributions. The main focus of my study is browsing behaviour in horses and the use of fodder trees and shrubs as forage enrichment for domesticated horses in Australia. The history and transformation of a Scandinavian boreal forest landscape since the 19th century.

## Forest Fire in the American Southwest

Levels of tannins are low. Primarily grazer or mixed feeder? Worcester, The Wealth of Nature: environmental history and the ecological imagination Oxford:Oxford University Press, 1993 , p.
