Prado, Carlos

Last Choice: Preemptive Suicide in Advanced Age, Second Edition: 63

His interests and expertise in philosophy are evident in the titles of his published books. The Last Choice establishes that preemptive suicide in advanced age can be rational: that it can make good sense to evade age-related personal diminishment even at the cost of good time left.

In our time suicide and assisted suicide are being increasingly tolerated as ways to escape unendurable mental or physical suffering, but it isn't widely accepted that suicide may be a rational choice before the onset of such suffering. Discussion of preemptive suicide goes beyond contributing to current widespread debate about assisted suicide.
