2003 NIH Research Festival

The law provides that the Director of NIDA may make grants or enter into cooperative agreements to expand the current and ongoing interdisciplinary research and clinical trials with treatment centers of the National Drug Abuse Treatment Clinical Trials Network that relate to drug abuse and addiction, including related biomedical, behavioral, and social issues. Mouse models that recapitulate many aspects of the genesis, progression and clinical course of human cancers are valuable resources to cancer researchers engaged in a variety of basic, translational, clinical and epidemiological investigations National Center for Biotechnology Information, NLM NCBI provides integrated access to DNA and protein sequence data, associated mapping data, protein structures, and MEDLINE. September 29, 1988—The National Defense Authorization Act, FY 1989, provided a special pay retention bonus for medical officers below grade O-7 who met certain criteria.

Staff Profile

The Act also enhances the powers of the Attorney General, law enforcement officials, and the courts regarding wire, oral, and electronic communications. She worked during the 82nd Texas Legislative Session advocating for the expansion of trauma informed care throughout the state.

Minority Health Opportunities

The statute authorizes an amount equal to plus inflation the amount currently spent by NIH Institutes for imaging and engineering programs.

Research Areas

Graduate Partnerships Program The NIH laboratories are linked to Universities in the training of Ph. Ong M, Write C, Espinosa L, Orfield G 2011
Inside the double bind: a synthesis of empirical research on undergraduate and graduate women of color in science, technology, engineering, and mathematics. CRFT is intended for anyone who has a desire to reduce health disparities in their community.

Postdoctoral Fellows Programs

The act also: 1 established the President's Biomedical Research Panel to make a comprehensive investigation of Federal biomedical and behavioral research; 2 extended indefinitely the research contract authority of section 301 h of the PHS act; 3 provided that the director, NIH, shall be appointed by the President by and with the advice of the Senate; and 4 required peer review of NIH and ADAMHA grant applications and contract projects. The act of March 3, 1879, was repealed.

Fellowship Program

Civil science can be more productive and creative science. It will provide a systematic approach to identifying and resolving legal issues, describing strategies to navigate law and share the most meaningful data possible while protecting privacy, promoting security, and maintaining trust. Section 622 prohibited Federal agencies from purchasing information technology that is not Year 2000 compliant unless the agency's chief information officer determines that noncompliance would be necessary to the function and operation of the agency.

Clinical Ethics Fellowship

May 26, 1930—The Ransdell Act reorganized, expanded, and redesignated the Hygienic Laboratory as the National Institute of Health.
