## **The kelpie's pearls (1973 edition)**

The Kelpie hoall and Kelpie hooll are reported in as appearing in the 1674 burgh records for. Historian and Charles Milton Smith has hypothesised that the kelpie myth might originate with the that can form over the surface of Scottish lochs, giving the impression of a living form as they move across the water.

As this was a family friendly event, there was a variety of activities, including face painting, storytelling and games, as well as refreshments for the whole family. A bridle taken from a kelpie was endowed with magical properties, and if brandished towards someone, was able to transform that person into a horse or pony. The story is lovely but so is the detail; the kelpie's pool next to the little house on the hillside, and the way she has tea and scones with 'Royal crowdie', and the bus, it's all really nice simplistic rural imagery.

Kelpie myths usually describe a solitary creature, but a fairy story recorded by in 1860 has a different perspective. But be careful, it might be a

kelpie! The kelpie is a mythological shape-shifting horse that lives in the lochs of Scotland and can also appear in human form. The myth is perpetuated with further tales of the kelpie as it is passed down through the family.

Other names for the Trow are Nightstealers and Creepers. It is usually described as a black horse-like creature, able to adopt human form. A folk tale from the Trossachs tells of a lonely kelpie that transforms itself into a handsome young man to woo a pretty young girl it was determined to take for its wife.
