## Recital of wool and woollen textiles industry in India

Though sheep rearing and wool production is highly developed in this region, woollen industry as such is not very developed in the region. This entry was posted in , on by. Wool — The Raw Material As a raw material, wool is a natural fibre obtained from sheep.

## History of the Wool Trade

Since 1955, production of woollen goods gradually picked up and in very recent years it crossed 900 million yards.

## Woolen & Wool Limited

The share of the wool in worldwide consumption of all textile fibre was 10 % in 1960, which has then steadily decline to a little less than 3 % in 2002. European processors have reported that consumer demand has dropped by more than 20 percent, again due to trade and economic uncertainty from the trade war and other problems such as Brexit and tensions in the Middle East.

## Woollen Mills

In 1998, the number of sheep and goat population in CIS was 147. In the hard years of 1930 —1935, textile manufacturing sustained industrial employment.

## Woolen & Wool Limited

The disappearance of any link would weaken, perhaps fatally, the rest of the chain.
