Levothyroxine: 7 things you should know

GENOTROPIN should not be used by patients who have had an allergy or bad reaction to somatropin or any of the other ingredients in GENOTROPIN.

Safer Injection Drug Use » North Carolina Harm Reduction Coalition

The overuse of one particular injection site can lead to degradation of the tissue of the site. This section of the manual presents information on proper injection technique intravenous, intramuscular, and subcutaneous injection.

How To Use

Results from NIDA-funded research have shown that prevention programs involving families, schools, communities, and the media are effective for preventing or reducing drug use and addiction.

Hazardous Drugs

For drug products that are not declaring the USP standard, sponsors should provide the qualitative declarations of the complete formulation of parenteral preparations in all cases. Circulation is also slower in the hands, causing healing to take longer.

Guidance Document: Labelling of Pharmaceutical Drugs for Human Use

Provides hazards and solutions for employee exposure to hazardous chemicals, such as pesticides, disinfectants, and hazardous drugs in the workplace.
