Looking up Guide number 140, we find that water is to be used to deal with this particular material, not dry chemicals or foams such as from fire extinguishers. Ethanol Emergency Response Considerations The U.

Hazardous Materials Emergency Response Guidebook

Green highlights Materials that are highlighted in green in the yellow and blue pages are inhalation hazard materials that are listed in the green pages of the ERG. White pages White pages are informational in nature. For this reason, charts are provided in the ERG for placards and labels from each DOT hazard class that lists a three-digit Orange Guide that can be used for the material.

Emergency Response Guidebook (ERG)

Motor carriers transporting hazardous materials must have appropriate documentation.
