**Inventing the Flat Earth: Columbus and... book by Jeffrey Burton Russell**

He has contributed numerous articles to scholarly journals and reference volumes and is the author of 16 other books on medieval history, the history of religion, and intellectual history, including A History of Heaven: The Singing Silence 1997. But perhaps the most intriguing focus of the book is the reason why we allow this error to persist.

But perhaps the most intriguing focus of the book is the reason why we allow this error to persist. He begins with a discussion of geographical knowledge in the Middle Ages, examining what Columbus and his contemporaries actually did believe, and then moves to a look at how the error was first propagated in the 1820s and 1830s--including how noted writers Washington Irving and Antoine-Jean Letronne were among those responsible.
