These Councils, the last of which is the second Vatican Council 1962-1965, are not accepted by the Orthodox Church as bearing either the validity or the authority that the seven truly Ecumenical Councils possessed; and for that matter; no decisions of these Roman Catholic Councils have any bearing on the Orthodox Church. First seven Ecumenical Councils

Ecumenical Council

However, the Church still exerts much power around the world despite its difficulties. About 900 bishops and abbots assisted. The decrees are usually in the name of the synod itself; in cases of the presiding in person they have also been published in the form of decrees with the formula: *sacrâ universali synodo approbante*.

Fathers of the First Six Councils

A plague came to Ferrara, and the Pope moved the Council to Florence. Sanctions were invoked against usurers, Jews, Saracens, and those aiding pirates.

What is an Ecumenical Council?

Political problems forced the Council's transfer to Bologna and finally interrupted its unfinished work altogether.
