## 21 children's books to look out for in 2021

Leonard and Sam Sedgman, and illustrated by Elisa Paganelli 9+ All-aboard for the third amazing journey in the Adventures on Trains series.

I'm seriously considering bumping my rating up to five stars because of all the emotions I felt whilst reading. Please send 250-word abstracts and brief CVs to Penelope Anderson by 20 March 2021.

One is a masterfully crafted novel sure to rend the heartstrings of its readers. We can do anything, Okay? However, I was slightly disappointed by this book in this regard.

I thoroughly enjoyed this despite my emotions being taken on a total rollercoaster!!! I would have liked to have seen more about the twins' daily lives and how they go about doing things, but we aren't really shown that very much. They put them in this little box, building a rigid stereotype and expected them to stay within the restrictions that were mentally built.

## One by Sarah Crossan

Like yes there need to be books about conjoined twins, but describing their lives in the poem format was so fricken boring!!!! Grace totally shines as the heroine and gave me understanding through her perspective, making me feel so much.

It creates two conjoined twin protagonists who are at once individuals and completely in sync with one another. Although One is written as a

collection of short poems, you can read it either as poetry or as a standard novel, with each poem acting as a new chapter. We particularly welcome comparative and transnational perspectives.

I also reviewed this book over on.

We particularly welcome comparative and transnational perspectives and work by graduate students. The Television Studies session is open to all paper proposals that explore some aspect of Television Studies.
